1.0 PUBLIC DEBT

1.1 Introduction

As at end November 2016, total public and publicly guaranteed debt stood at KShs 3,753.57 billion or 56.99 per cent of GDP (Table 1). The increase of 0.87 per cent over the end October 2016 position is attributed to a slight increase on the domestic debt. Domestic debt increased by Ksh 40.98 billion to stand at Ksh 1,918.66 million, while the external debt decreased by Ksh 8.56 billion to stand at Ksh 1,834.91 billion in November 2016 (Table 1).

1.2 Cost/Risk Characteristics of Public Debt

Reflecting Government external debt strategy of contracting or guaranteeing external loans with highly concessional terms to minimize interest rate cost, the average interest rate and grace period on the external debt portfolio was 0.6 percent and 6.9 years, respectively. In addition, the average maturity period for external loans was 30.6 years while the average grant element was 49.22 percent.

As an indication of the success in the lengthening of maturity structure of domestic debt to minimize refinancing risk in line with the 2015 Medium Term Debt Strategy, the average maturity profile of outstanding Government domestic debt remained at 5 years as at end August 2016.
